New minerals were posted to John Betts - Fine Minerals moments ago.

HIGHLIGHTS OF THE MINERALS POSTED THIS WEEK:
- Calcite with Goethite and Pyrite from Kentucky Stone Quarry, Kentucky
- Gold from Coulterville-Mariposa region, Mother Lode Belt, California
- Quartz from Morse Brook, near Screw Augur Falls, Maine
- Cerussite twinned crystals from Tsumeb Mine, Namibia
- Beryl var. Heliodor from Volodarsk-Volynskii, Ukraine
- Quartz from Concord Pond, Woodstock, Maine
- Calcite zoned crystals from Dalnegorsk, Russia
- Rubellite Tourmaline from Paprok, Afghanistan
- Cuprite from Milpillas Mine, Mexico
- Vanadinite with Calcite from San Carlos Mine, Mexico
- Dioptase and Quartz on Chrysocolla from Milpillas Mine, Mexico
- Cerussite twinned crystals with Hydrocerussite from Tsumeb Mine, Namibia
- Zoned Aquamarine-Morganite crystals from Baha, Braldu Valley, Pakistan
- Vanadinite from J.C. Holmes Claim, Patagonia, Arizona
- Hambergite from Little Three Mine, Ramona District, California
- Smoky-Amethyst Scepter with Hematite inclusions from Chibukul Mine, Zimbabwe
- Quartz pseudomorphs after Wulfenite from Finch Mine, Arizona
- Dioptase with minor Calcite from Christmas Mine, Arizona
- Fluor-buergerite Tourmaline (formerly Buergerite) from Mexquitic, Mexico
- Quartz var. Smoky Quartz from North Moat Mountain, New Hampshire
- Dolomite ps. after Aragonite from Cottonwood Draw, New Mexico
- Fluorite (zoned crystals) from Middle Mountain, New Hampshire
- Mimetite over Calcite-Smithsonite from Tsumeb Mine, Namibia
- Malachite pseudomorphs after Azurite from Milpillas Mine, Mexico
- Dioptase over Calcite from Christmas Mine, Arizona
- Pyrite with Chalcocite coating from Milpillas Mine, Mexico
- Apophyllite and Pyrite over Datolite from Millington Quarry, New Jersey
- Pyrite with Chalcocite coating in Quartz from Milpillas Mine, Mexico
- Chabazite from Upper New Street Quarry, New Jersey
- Pyrite with Chalcocite coating in Quartz from Milpillas Mine, Mexico
- Datolite from Prospect Park Quarry, New Jersey
- Datolite with unidentified mineral (chamosite?) from Millington Quarry, New Jersey
Calcite with minor Prehnite from Millington Quarry, New Jersey

Again this week, minerals posted now have videos embedded on each page. Videos are becoming the standard for selling minerals. A video shows the mineral in the hand, to give scale. As the mineral is rotated you can see the overall shape. As the light reflects off the surfaces, you can assess the luster of the crystal faces.
